01 / PROFILE

Customer-focused IT support professional with strong communication and problem-solving skills. Experienced in delivering responsive technical service across fast-paced environments, resolving hardware, software, identity, access and connectivity issues while continually improving the end-user experience.

02 / EXPERIENCE

OCT 2024
– PRESENT

IT Support Engineer

OPENLANE Canada

- / Administer user access, group policies and identity authentication across Active Directory and Okta, including access provisioning and password resets.
- / Track, prioritize and resolve high-volume Tier 1 and Tier 2 incidents in ServiceNow while meeting strict SLA turnaround times.
- / Deliver end-to-end remote support for hardware, software and operating system issues across Windows and macOS.
- / Diagnose VPN, local Wi-Fi and other network connectivity issues for on-site and remote employees.
- / Manage account lifecycles, role-based access control and security group memberships to maintain directory accuracy.

- / Configure and deploy corporate desktops, network printers and peripherals, streamlining onboarding setup.
 - / Onboard corporate mobile devices through MDM enrolment, profile provisioning and carrier SIM activation.
 - / Use remote management tools to resolve critical system bugs and application failures across hybrid teams.
-

NOV 2023
– SEP 2024

○ Customer Service Associate

Tech Mahindra · Canada

- / Provided first-line support for internet connectivity issues, troubleshooting routers, modems and other network devices.
 - / Helped customers with price-plan changes, device upgrades and internet service configuration.
 - / Monitored network performance and responded swiftly to outages or disruptions.
 - / Created and routed cases to the back-office team for plan-change errors and missing discounts.
 - / Adapted support to customer tone and provided step-by-step guidance through the telecom self-serve portal.
 - / Escalated chats when necessary and presented eligible financial products and exclusive plans.
-

NOV 2011
– AUG 2012

○ IT Service Desk Analyst

Accenture · India

- / Provided immediate IT support by phone, email and in person for hardware, software and network issues.
 - / Logged, tracked and categorized incidents, ensuring timely resolution from password resets to complex software installations.
 - / Escalated unresolved issues to the appropriate tier while keeping users informed.
 - / Set up, configured and maintained IT equipment and software for new and existing employees.
 - / Created and updated knowledge-base documentation for recurring issues.
-

○ **Technical Support Advisor · Apple Macintosh Project**
Aditya Birla Minacs

- / Diagnosed and resolved Mac operating system issues through call support.
- / Performed operating system reinstalls, user setup, backups, restores and application installations.
- / Troubleshoot OS errors using ASR and Recovery Console, along with LAN and WLAN connectivity issues.
- / Scheduled Apple Service Centre appointments for hardware support.
